City of Bryant – Contractor Inspection Checklist

- Inspection Scheduling Procedure
 - All inspections must be scheduled by calling Permit Office or Online (www.cityofbryant.com/pages/business_center.php).
 - When calling, please have either the permit number, project address, or subdivision and lot ready.
 - Online scheduling requests made after normal business hours will not be scheduled for the next day; instead, they will be scheduled two business days out.
 - If you call an inspector and they do not answer, leave a voicemail with your name, contact number, and project information so they can return your call.
 - Each trade is responsible for requesting their own inspections (e.g., plumber call for plumbing, electrician for electrical, HVAC etc.).

- Inspection Fee Information
 - Electrical re-inspection fee: \$50.00
 - All other re-inspection fees: \$35.00

- Same-Day Inspection Availability

Same-day inspections are only available for the following:

 - Footer inspections
 - Slab inspections
 - Under-slab plumbing inspections
 - Sewer, gas, and water service inspections
 - Emergency inspections due to gas or electrical outages

- Next-Day Inspections Categories

These inspections are typically scheduled for the next business day (subject to work and inspector availability):

 - Framing Inspections
 - Fire wall and ceiling inspections
 - Rough-in inspections (electrical, plumbing mechanical)
 - Final inspections (electrical, plumbing mechanical)
 - Certificate of Occupancy inspections

*Note: Request your online inspection before 4:30 p.m. for next-day scheduling (when available). "Next-day" scheduling is **not guaranteed** and may vary depending on the number of inspection requests received and inspector availability.*
