Mayor Treat and Council Members,

I am reaching out to formally apply for the open Parks Committee seat representing Ward 3.

I am passionate about serving my community through helping create opportunities that enrich the lives of Bryant residents of all ages. Community institutions and social programs are the backbone of a healthy society, and few organizations embody that mission more visibly than Bryant Parks and Recreation.

My passion for our community library reflects my belief that public spaces matter. Whether through parks and rec programs, libraries, or community events, these shared resources bring people together, strengthen neighborhoods, and improve our quality of life. Human connection is just as important as physical activity, and Bryant Parks and Recreation plays a vital role in fostering both.

I am known for my tenacity and my willingness to engage deeply with issues that affect our community. I would welcome the opportunity to apply that energy in a collaborative and constructive way to support the Parks Committee mission and help ensure that Bryant's parks, programs, and facilities remain accessible, welcoming, and beneficial to all residents.

I would be honored to serve the citizens of Bryant and contribute to the continued success of our parks and recreation system.

Thank you for your consideration.

Kindest Regards,

Lisa Bergren BSN, RN

Lisa Bergren
[95 Bame Circle Bryant, AR 72019] [LDBergren@gmail.com] [501-317-1990]
