ITEM HISTORY (Previous Council reviews, action related to this item, and other pertinent history)

In April of 2008, the last Water Master Plan was adopted by Council as the departement's official future plan. Crist Engineers presented a summary of the updated water master plan during WSAC which Council was asked to attend. The City has to have an adopted master plan for our system before we can move forward with certain studies.

ITEM COMMENTARY (Background discussion, key points, recommendations, etc.) Please identify any or all impacts this proposed action would have on the City budget, personnel resources, and/or residents.

It is important to note that this master plan will serve as our guide to how we budget for the future, how our rates are calculated, how different fees are analyzed, and how we plan for growth/development. Our last master plan was referenced very closely during our budget plannings. Adopting the master plan was the City's official master plan/CIP does not require us to complete those projects in the allocated amount of time, but justification would be provided if we did change parts of the master plan. Prices are all estimates, and please keep in mind the system is forever changing. This plan does not count for emergencies or unforeseen circumstances. We will actively communicate with Council and the community as we make our way through these projects. The master plan carries a recommendation from WSAC to adopt.

(This section to be completed by the Mayor)
