RE: First Southern Batist Church of Bryant Expansion (Hope Job#24-0260)
604 S. Reynolds Road Bryant, Arkansas

Dear Mr. Leonard,
I am writing to this item be added to the DRC agenda next week. I have attached construction drawings for the phased expansion of this property. This expanision will increase the building footprint, increase parking, create a new sewer main connection, and modify access to the highway. We will of course follow the drainage manuel in desinging the detention pond and work closely with ArDOT on access to the highway.

Bryant Water and Sewer Service this property currently. The electric is served by Entergy. There is a large gas transmission line that crosses this property. Our proposed sewer main extention will cross this transmission line but precaustions will be taken.

The church is very excited about this expansioin and we are also happy to see the groth in this community. We look forward to discussing this project with you at DRC.

Sincerely,

Jonathan Hope
