Statement of Repair

The leak detector arrived onsite and performed leak detection and a section repair/replacement on the water system. There are no further leaks currently.

Tech Notes-12/22/2025

Upon arrival, dug out line leaking underneath yard box. Expose PVC 90°, turned water on and took photo of active leak. Upon saying how large of the leak was, had suspicion there was not additional leak however dug back to expose 90° expansion PEX fitting. 90° was not leaking, however, could see a tunnel leading down to large leak. Made repair on large leak by cutting out 90 installing PVC mail adapter and running PEX to prior repair. Allowed time for PVC glue to set up. Slowly turned water on to allow pipe to pressurize. Checked meter and meter was at complete stop.
Job is complete.

RE: Request for Leak Adjustment – Account #[102-03963-01]

To the Billing Department,

I am writing to formally request a leak adjustment for my water bill for the period ending in December. Our recent bill totaled **$470.37**, which is significantly higher than our typical monthly usage due to an undetected leak on our property at 6930 Highway 5 North.

The leak has since been identified and professionally repaired. I have attached a statement from the plumber who performed the repair, confirming that the issue was addressed in December and that the system is now functioning correctly.

Because this high bill was the result of a leak that has now been resolved, I am requesting a **50% reduction** ($235.19) of the excess charges. We have acted quickly to ensure no further water is wasted and would appreciate your assistance in adjusting our balance to a more standard amount.

Thank you for your time and for considering this request. Please let me know if you require any additional information or specific forms to process this adjustment.

Sincerely,

Jared Beavers

Rate Presentation/Rate Discussion: Plant manager at next meeting in January. Second & third readings in December council as well as the public hearing for sewer and will ask that they adopt them that night. They can be implemented with an emergency clause to take effect in January. People will see on their bill starting in February.

Lift Station cleaning update: trying to keep it clean and having residence stop flushing grease down the drains. Using a degreaser and hose to pressure wash them down. Wanting to use less mix of chemicals in the plant because it can have an adverse effect of biology. Looking to do piolet test to run some enzymes and microbial growth through lift stations that will hopefully approve grease removal as well enhance how our bugs work within the plant. Grease is the biggest issue, not so much chemicals or industrial outfalls. Should make a public announcement regarding the grease issue to have people stop flushing grease down drains.
