STORMWATER ED'S EROSION CONTROL TIPS

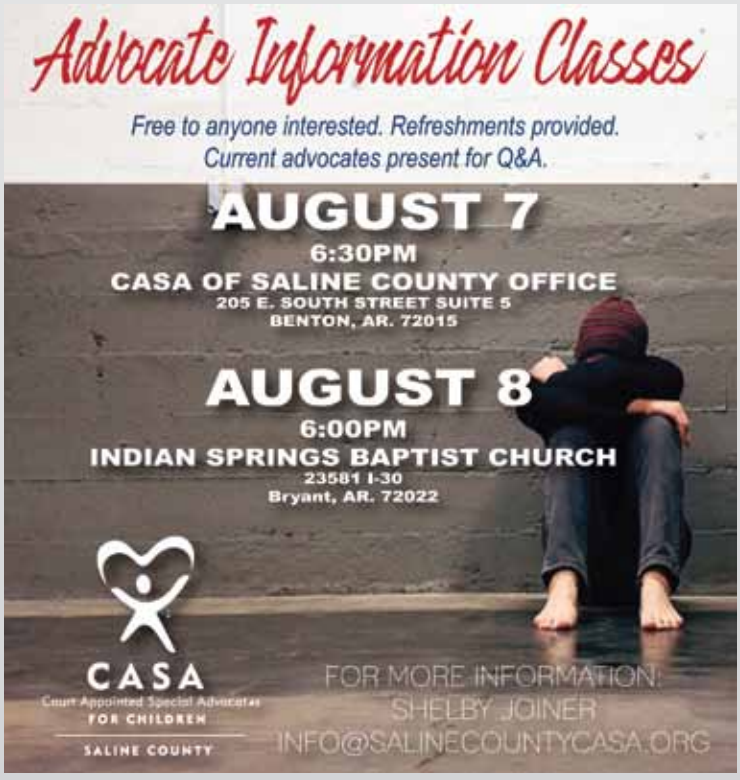

Owners of property which contains creeks, streams or ditches are faced with many challenges and responsibilities such as maintenance, pollution prevention and controlling bank erosion.

Here are a few tips on addressing erosion:

- Plant trees & shrubs, especially on slopes. Trees reduce runoff by 50%
- Use ground cover plants in areas where grass will not grow.
- Avoid damaging, poisoning or removing vegetation along creeks.
- Vegetation creates strong root systems and helps hold the soil in place.
- Vegetative buffers prevent erosion and filters out trash and pollutants.

PET ID TAGS: $1.00

August 18th is International Homeless Animals Day. To mark this occasion and to aid in reuniting lost pets with their families, Bryant Animal Control & Adoption Center is hosting a Pet ID Promotion: Get a personalized, engraved ID tag for your pet for only $1 on Saturday, August 18th. The shelter, located at 25700 Interstate 30 N in Bryant is open from 12pm - 4pm. (Available while supplies last.)

Tick season has hit Central Arkansas hard this year. Ticks are plentiful and Bryant Animal Control suggests that all pet owners contact their veterinarian to seek advice about the best way to avoid these nasty pests from biting your pet.
